

Level B/Niveau B
Weekly exercise L22_1
Answers

En vous référant à la [présentation du groupe nominal](#), pour chaque groupe extrait du texte, vous indiquerez sa construction (P, G ou A) et son noyau. La réponse est donnée pour le premier.

Texte (adapted from "The guardian" "Bombardier cuts 1,400 jobs after German rival wins Thameslink contract", Dan Milmo, Tuesday 5 July 2011 08.03 BST):

Bombardier is to cut more than 1,400 jobs at the UK's last remaining train manufacturing plant, in Derby, after losing a £3bn government contract to a German rival.

The Canadian engineering giant said the completion of recent orders and failure to secure a deal for the Thameslink route made a near-50% cut in its workforce "inevitable." Bombardier announced plans this morning to shed 983 temporary staff and 446 permanent workers at its Derby factory, a total of 1,429 jobs. A 90-day consultation will be launched.

Groupes nominaux :

the UK's last remaining train manufacturing plant = **G => plant**
Dans ce groupe, on trouve " 's " : la construction est génitive et le noyau est après " 's ".(voir la [présentation du groupe nominal](#))
Comme il y a plusieurs mots après " 's ", on recommence l'analyse : " last remaining train manufacturing plant "

a £3bn government contract = **A => contract**
a German rival = **A => rival**
The Canadian engineering giant = **A => giant**
the completion of recent orders and failure = **P => completion**
a deal for the Thameslink route = **P => deal**
a near-50% cut in its workforce = **P => cut**
983 temporary staff = **A => staff**
446 permanent workers = **A => workers**
a total of 1,429 jobs = **P => total**
